She was a very dainty looking old lady, respectably and neatly dressed,

"You mean to say," asked Mr. Lane, "that she goes to church and asks you or your rent?" "Yes, sir, I do assure you. She comes into the pew beside me, and when I join in the responses, as I always like to do, she continually

had been worked in one family thirty-five years, as I bought him from the grandson of the man who had him at that time. I think I am correct in saying that the noted trotting mare, "Mollie," was his daughter.

There is a record of a shire horse in England that reached the age of fifty-nine years, at which his teeth and eyes were still good, and he was then pensioned off by the owner on a farm.

He was still at the same work two years after that. My old horse is still

Now, if it is possible for a horse, by means of good feeding and general care, to live and work to such an age as this, how much is the aggregate loss which occurs through neglect and mismanagement on all farms in the country?—Country Gentleman.

The doctor put up his watch. The crisis is past," he said, "and Bourbon is spared yet for many years to old Kentucky. I have now but one fear. The dreadful fever he has may leave him his health but not his mind."

With a nod he stepped noiselessly into the room. The friends of the man sat silent, hardly knowing as to whether they should rejoice. Suddenly the sufferer stirred. "Water! Water!" he gasped. The watchers started.

The paper has a slightly textured appearance with some minor discoloration and small dark spots, characteristic of old paper. granted the continuance when Mr.

term. By dismissing the case the
county attorney will have time to in-

DEATHS.
Ruth, daughter of Mr. and Mrs.
Chas. B. Thompson, died this morn-
ing, Friday, March 15th, of spinal
meningitis, aged 8 months. She was
their only child, a bright, winsome
baby, their joy and their pride, and
her death was a sad blow. The funeral
will occur Sunday afternoon at the
Presbyterian church.

Mrs. Louisa Beach, wife of O. Beach,
senior member of the grocery firm of
Beach, Cole & Beach, died shortly be-
fore dinner today (Friday) of cancer
of the breast, aged 69 years. Mrs.
Beach has been a patient sufferer for
some time with this fearful malady,
and her death was not unexpected.
She was a most estimable Christian
lady, one who was ever active in
Christian and charitable work, not-
withstanding her age and infirmities.
And her death will cause deep sorrow
throughout the community. Her re-
mains will be taken to Northfield
Monday, tomorrow evening for burial.
Her husband and two children, L. D.
Beach and Mrs. C. E. Cole, both resi-
dents of this city survive her. They
have the sympathy of the entire com-
munity in their sad affliction.

At 9 o'clock this morning, Friday,
March 15th, A. W. Congdon, one of
Brainerd's oldest and most respected
citizens, died at the residence of his
daughter, Mrs. Nado, in East Brainerd,
aged 76 years, 11 months and 16
days. The immediate cause of his
death was apoplexy, but he has been
confined to his bed for several years.
He was stricken down with paralysis
in 1883, from which stroke he never
recovered. After the death of his
wife in 1887, he made his home with
his daughter in East Brainerd,
where he died. The funeral services
will be held at the First Congrega-
tional church, on Sunday afternoon at
3 o'clock, Rev. Edmunds officiating.
Deceased was born on March 25th,
1818, on Long Island, N. Y., where
he passed his boyhood days. When
he grew to manhood he spent several
years in New York City, moving thence
to Toiga county, Penn., in the '30s.
He was married to Mary Jane Cong-
don in 1841, who shared the joys and sor-
rows of his life for 46 years. To them
were born twelve children, eleven of
whom survive him, six boys and five
girls, and they are scattered through-
out the country. John C. Frank
and Mrs. Nado reside in this city.
Mrs. Swartz in Fargo, Mrs. H. Shaver
in Mapleton, N. D., Charles in Oak-
land, Cal., Wm. in Duluth, Minn., J. J.
Adams in Denver, Mrs. Eddy in Steu-
ben county, N. Y., and Thomas R.,
the youngest, is an art student in
Paris, France.
He also leaves two brothers, Geo.
Congdon, residing at Placerville, Cal.,
and Benjamin, who lives in Schuyler
county, N. Y. He lived in Toiga
county, Penn., until 1882, since which
time he has lived here. He was a man
of upright character and sterling
worth, hence had the respect of all
who knew him.

A Good Company.
The Wilson Theatre Company, un-
der the management of Davidson &
Glazier, began a week's engagement
at the Sleeper opera house last Mon-
day night in "Life for a Life" to a
crowded house. On Tuesday the
company presented "The Lost Para-
dise," on Wednesday "The Ranch
King," and last night Bartley Cam-
pells magnificent drama "The
Slave," was the bill. On Tuesday
and Wednesday fair sized audiences
greeted the company, but last night
was at a premium. The company is
equal to not only to any other the-
atrical company that has ever visited
our city, hence, if our readers wish
to see a good entertainment at a small
price, they should not fail to attend.
We have not the space to refer to the
merits of each member of the com-
pany, it is sufficient to say that the
company has unusual proficiency in the
roles assumed. Tonight "Kidnapped" will
be presented, and tomorrow night the
bill will be "Lead Me Your Wife."
A grand family matinee will be given
tomorrow afternoon, when each child
attending will be given a present. To-
night the new comedy, "Business Oak
Leaves," will be given, and tickets
for which have been given away every
evening during the week.

Railroad Employees Protest.
A mass meeting of the railroad
employees of this city and Staples
was held at the opera house Saturday
evening, to protest against the pas-
sage of several bills now before the
legislature whose object it is to
arbitrarily fix freight rates below
what the railroad companies can
afford to do the work for, and also to
annoy the railroad companies, in
other ways. These bills are intro-
duced for what the bills would call
"leg pullers" and as a matter of fact
have never really stood much chance
of being passed, but it was thought
advisable by the employees to hold a
meeting and protest against their
passage, for if they should by chance
be enacted into laws, the companies
would have to reduce wages in cut-
ting down expenses to meet the new
situation, which would result in
great suffering among those of
workmen and their families, as wages
are very low as it is.

The meeting was called to order
by Mayor Staples, who briefly referred
to the object of the meeting, and
then introduced Judge Fleming.
Mr. Fleming spoke at some length
on the situation, and explained in the
light of his experience on those
matters, the injustice of the proposed
legislation. Mr. Fleming was fol-
lowed by H. C. Stivers in a lengthy
speech on the railroad problem in
general. Mr. Stivers, who is a mem-
ber of the legislature, was chairman
of the railroad committee, and made
a study of the subject, hence he was
well qualified to throw a great deal
of light on the subject. J. H. Koop
was also called upon, and made a
neat little speech endorsing the ob-
ject of the meeting. Engineer Horn,
of Staples then spoke of the distress
that would result to railroad em-
ployees and their families if the pro-
posed bills were enacted into law,
and called upon all employees to use
all the influence in their power to
defeat them. He offered a number of
resolutions addressed to our repre-
sentatives in the legislature to oppose it,
and asked their adoption, which was
done by a unanimous vote, fully 500
men being present. The resolutions
are as follows:
"WIELAND, we citizens of Brainerd
and Staples, together with the em-
ployees of the Northern Pacific Rail-
road, having learned that there have
been several bills introduced into the
state legislature having for their
purpose the reduction of the tariffs
now in effect, thereby reducing the
earnings of the railroads and making
it necessary for them to further re-
duce the wages of employees to meet
the losses in revenues which this
would cause, therefore be it
RESOLVED That we earnestly pro-
test against the proposed legislation,
which means so much to many thou-
sands depending upon them, and so
little individually to those whom said
legislation is proposed to benefit, and
we believe that we, as citizens of the
state, are entitled to the same con-
sideration from your honorable body
as any other class of citizens. We
believe that the railroads of this
state are not now, and have not for
some time past, been earning more
than operating expenses, and if said
legislation is enacted it will work a
great hardship on us and those de-
pendent upon us. We believe that
there is not any great number of
citizens of this state acquainted with
this legislation, and we do not believe
there will be any when it is shown
the hardship it would involve on
thousands of railroad men and their
families in this state. Further, that
a copy of this resolution be sent to
our representatives of the Forty-sixth
legislative district, requesting that
they do all in their power to defeat
said legislation and protest to your
honorable body and his excellency,
the governor of the state."

By dismissing the case the county attorney will have time to investigate it, and if the facts warrant, bring the matter before the grand jury and have the case tried at the April term of court.

DEATHS.

Ruth, daughter of Mr. and Mrs. Chas. H. Thompson, died this morning, Friday, March 15th, of spinal meningitis, aged 8 months. She was their only child, a bright, winsome baby, who loved her mother, and her death was a sad blow. The funeral will occur Sunday afternoon at the Presbyterian church.

Mrs. Louisa Beach, wife of O. Beach, senior member of the grocery firm of Beach, Cole & Beach, died shortly before dinner today (Friday) of cancer in the breast, aged 66 years. Mrs. Beach has been a patient sufferer for some time with this fearful malady, and her death was not unexpected. She was a most estimable Christian lady, one who was ever active in Christian and charitable work, and her death will cause deep sorrow throughout the community. Her remains will be taken to Northfield, Minn., tomorrow evening for burial. Her husband and two children, L. D. Beach and Mrs. C. E. Cole, both residents of this city survive her. They have the sympathy of the entire community in their sad affliction.

At 9 o'clock this morning, Friday, March 15th, A. W. Congdon, one of Brainerd's oldest and most respected citizens, died at the residence of his daughter, Mrs. Nathan East, Brainerd, aged 76 years, 11 months and 16 days. The immediate cause of his death was apoplexy, but he has been confined to his bed for several years. He was stricken down with paralysis in 1883, from which shock he never recovered. After the death of his wife in 1887, he made his home with his daughter in East Brainerd, where he died. The funeral services will be held at the First Congregational church, on Sunday afternoon at 2 o'clock. Rev. Edmonds officiating.

Deceased was born on March 28th, 1828, on Long Island, N. Y., where he passed his boyhood days. When he grew to manhood he spent several years in New York City, moving thence to Toga county, Penn., in the '30s. He was married to Mary Jane Owen in 1841, who shared the joys and sorrows of his life for 46 years. To them were born twelve children, eleven of whom survive him, six boys and five girls, and they are scattered throughout the country. John C. Frank and Mrs. Nado reside in this city, Mrs. Swartz in Fargo, Mrs. H. Shaver in Mandan, N. D., P. D. Barlow in Chicago, Ill., Wm. in Spokane, Mrs. J. Adams in Denver, Mrs. Eddy in Stenbo county, N. Y., and Thomas R., the youngest, is an art student in Paris, France.

He also leaves two brothers, Geo. Congdon, residing at Placerville, Cal., and Benjamin, who lives in Schuyler county, N. Y. He lived in Toga county, Penn., until 1882, since which time he has lived here. He was a man of upright character and sterling worth, hence had the respect of all who knew him.

A Good Company.
The Wilson Theatre Company, under the management of Davidson & Glazier, began a week's engagement at the Sleeper opera house last Monday night in "Wife for Wife," to a crowded house. On Tuesday the company presented "The Lost Paradise," on Wednesday "The Ranch King," and last night in "Barber's Shave," which was a magnificent drama. "The White Slave" was the bill. On Tuesday and Wednesday fair sized audiences greeted the company, but last night as on Monday night, standing room was at a premium. The company is equal to it not superior to any repertoire company that has ever visited our city, hence, if our readers wish to see a good entertainment, let them go to see "Wife for Wife," to-morrow night, they should not fail to attend. We have not the space to refer to the merits of each member of the company, it is sufficient to say that each of the unusual proficiency in their assumed. Tonight "Kidnaped" will be presented, and tomorrow night the bill will be "Lend Me Your Wife." A grand family matinee will be given on Monday afternoon, when each child attending will be given a present. To-morrow night a handsome oak bed-room set will be given away, tickets for which have been given away every evening during the week.

Railroad Employees Protest.
A mass meeting of the railroad employees of this city and Staples was held at the opera house Saturday evening, to protest against the passage of several bills now before the legislature whose object it is to arbitrarily fix freight rates below what the railroad companies can afford to pay for work, and also to annoy the railroad companies, in other ways. These bills are introduced for what the boys would call "leg pullers," and as a matter of fact, the railroad employees are not much concerned with being passed, but it was thought advisable by the employees to hold a meeting and protest against their passage, for if they should be passed, the railroad companies would have to reduce wages in cutting down expenses to meet the new situation, which would result in further suffering among this class of workmen and their families, as wages are very low as it is.

The meeting was called to order by Mayor Halsed, who briefly referred to the object of the meeting, and then introduced Judge Fleming. Mr. Fleming spoke at some length on the situation, and explained in the light of his experience on those matters the effect of the proposed legislation. Mr. Fleming was followed by H. C. Stivers in a lengthy speech on the railroad problem in general. Mr. Stivers, while a member of the legislature, was a member of the railroad committee, and made a study of the subject, hence he was well qualified to throw a great deal of light on the subject. J. H. Koop was also called upon, and made a neat little speech endorsing the object of the meeting. Engineer Horn, of Staples then spoke of the distress that would result if the railroad employees and their families if the proposed bills were enacted into law, and called upon all employees to use all the influence in their power to defeat them. He offered a set of resolutions, which were adopted by the meeting, and asked their adoption, which was done by a unanimous vote, fully 500 men being present. The resolutions are as follows:

"WHEREAS, we citizens of Brainerd and Staples, together with the employees of the Northern Pacific Railroad, having learned that there have been several bills introduced into the state legislature having for their purpose the reduction of the tariffs now in effect, thereby reducing the earnings and the means of making it necessary for them to further reduce the wages of employees to meet the losses in revenues which this would cause, therefore be it

Resolved, That we earnestly protest against the proposed legislation, which means so much to many thousands depending upon them, and so little individually to those whom said legislation is proposed to benefit, and we believe that we, as citizens of the state, are entitled to the same consideration from your honorable body as any other class of citizens. We believe that the railroads of this state are not now, and have not for some time past, been earning more than operating expenses, and if said legislation is enacted it will work a great hardship on us and those dependent upon us. We believe that there is not any great number of citizens of this state asking for this legislation, and we do not believe there will be any when it is shown the hardship it would involve on thousands of railroad men and their families in this state. Further, that a copy of this resolution be sent to our representatives of the Forty-sixth legislative district, requesting that they do all in their power to defeat said legislation and protest to your honorable body, and with an excellency, the governor of the state."

District Court.
The March general term of district court will open on Monday the 19th inst. Judge G. W. Holland presiding. This term of court bids fair to be quite an extended one, although the calendar is not large. However, many cases are now pending before the grand jury, than at any previous term, and quite a number of indictments will be found and criminal trials held. Oscar Wilde claims that he has been libeled by the marquis of Queensbury, and has had the noble lord arrested. Oscar evidently is not partial to Marquis of Queensbury rules.

According to statistics kept in New York City, 273 fires were caused there last year by matches, and only forty-eight from all the uses and appliances of electricity. Coal oil is charged with 347 fires and gas with 230.

It will be observed that both parties to the pending later contest in New York have pertinently rejected all proffers of interference by the state board of arbitration and mediation, which serves to emphasize the fact that such boards are practically useless.

New York is the first manufacturing city in the country. It has 15,000 factories, which make every year \$200,000,000 worth of goods, including \$80,000,000 of clothing, \$25,000,000 of books and papers, and \$18,000,000 of cigars. Central Park covers 862 acres and cost \$15,000,000.

For some time after its discovery by the Europeans, tobacco was called potum, the name given it by the Indians of the West Indies, Central and South America. The name of tobacco comes from that of the pipe used by the West India Islanders. It was originally tobago.

Frederick Douglass will be remembered in a public monument more promptly than is usually the case with distinguished Americans. His bronze statue will be the main feature of the memorial to be erected at Rochester, N. Y., in honor of the colored soldiers who served in the Union army. It will be placed on a massive pedestal, with tablets appropriately inscribed.

In finishing up the Chinese navy the Japanese caught an American who was in the Chinese torpedo service and who had violated the parole he gave when he was captured once before. If the Japanese decide that this interesting individual is a man without a country, no one will feel very bad about it in America.

American iron and steel masters are indebted to the rapid extension of electric railways for the activity in their line of manufacture. The electric power generated for rails by the steam railways has fallen off heavily. The trolley roads used 155,196 tons of rails in 1894, an increase of about one-third in two years.

Correspondent writes from China that thousands of interior towns and villages in that country are not aware that a war is in progress. The inhabitants have never heard of Japan, or else think it a country located somewhere near England. The job of whipping this stupid giant presents some discouraging features.

Milk is a great institution and the gentle cow puts in a mighty night more work than a good many give her credit for. It appears from recent statistics that the Bostonians, for instance, manage to stow away about \$2,000,000 quarts of milk every year; and it is estimated that the milk consumption in this great and free and reconstructed Union is represented pretty closely by \$8,000,000,000. These are certainly big figures for milk.

The new British cutter Alisa experienced rough weather on the Bay of Biscay and lost some of her copper. This is evidence that she was strained, as copper does not spring off unless the plank is a very firm. It is believed that the Valkyrie wrinkled her copper by a severe strain during rough weather on her run across to race for the Americas cup in 1893. It seems that British shipbuilders have something to learn in the way of yacht construction.

There died near Rochester, England, recently an old salt named Thomas Lyons, at the age of ninety-three. He formed an interesting link with the past, having served aboard one of the old wooden walls of England during the reign of George IV., and lost a leg during a terrible gale. During his last illness he was visited in the hospital by Princess Adelaide, duchess of Teck. Seventy-three years ago he was awarded an annual pension of £200, which continued till his death.

A remarkable literary find is reported from Dublin. In the library of Trinity college was recently discovered a manuscript of the "Fanny Hill" farces, written in the seventeenth century, containing unpublished poetry by Bacon, Massinger and many other minor authors. The poem by Bacon, written after his fall, is entitled "Facewell to Fortune." An event like this will serve to remind the world that something wonderful is always being discovered outside the range of probability.

HARRY MUST HANG.

HE IS CONVICTED OF MURDERING CATHERINE GING.

"Guiltily as Charged" Is the Verdict Rendered by the Jury in the Famous Murder Case After Deliberating Two Hours.

Minneapolis, March 10.—"Guiltily as charged" was the verdict rendered by the jury in the case of Harry Hayward, charged with the murder of Catherine Ging, and he is now in the shadow of the gallows.

The verdict was reached after only two hours' deliberation.

Mr. Erwin was taken ill before the verdict was announced and went to St. Paul. A jury of twelve men was granted until next week, when a motion will be made for a new trial.

If this is refused an appeal will be taken to the supreme court.

Had the verdict been one of acquittal Hayward would have been lynched and the mob in the court room would have been as the mob about the court room was large enough to overcome the entire police department.

The jury's proceedings.

Court opened an hour earlier than usual to give Mr. Erwin the time to close his argument for the defendant, and the jury was called in.

Erwin began by pointing out that the loan Harry Hayward made Miss Ging was not attacked in the evidence except by the word of Claus Bitt.

The validity of this loan was the chief of the defense. It was evident that had the police machine been properly set in motion the mystery surrounding Miss Ging's behavior would have been solved, and in a manner consistent with the evidence.

At the same time it would have revealed this "innocent man from the street" as a man who had been living with the Adams.
